ADD LO

TECHNICAL BULLETIN

ACID BOOSTER

Add Lo™ is a super-concentrated acidic booster engineered to lower the pH and enhance the cleaning performance of finished acidic detergents. By increasing acidity, Add Lo™ strengthens the detergent's ability to break down and remove stubborn mineral deposits, inorganic soils, road film, and hard water buildup commonly encountered in vehicle wash applications.

Designed for both touch-less and automatic friction wash systems, Add Lo™ allows operators to increase the cleaning strength of their existing low-pH detergents without switching products. Its super-concentrated formulation provides a flexible, economical way to adjust acidity for more demanding cleaning conditions, including heavily soiled vehicles and seasonal road grime.

Advantages:
Strong Acidity – Sulfuric, Phosphoric and Citric acids target a wide variety of inorganic soil types.
Easy to use – Simply use with a dual draw injector to enhance your current detergent.
Hard Water Tolerant – Organic acid helps maintain performance in hard water.
Ultra-Concentrated – Excellent performance at economical use rates.
Freeze Protection – Very low freeze point for winter shipping.

DIRECTIONS FOR USE

Friction Pre-soak Booster:
Using a dual draw Injector, inject 5-15 mL into a 1.5-3.25 GPM stream with your current detergent. For hydrominders start with an olive or pink-purple tip.

Touchless Pre-soak or Bug Prep Booster:
Using a dual draw Injector, inject 10-15 mL into a 2.0-3.25 GPM stream with your current detergent. For hydrominders start with a purple or pink tip.

Wheel & Tire CTA:
Using a dual draw Injector, inject 10-30 mL into a .75-2.0 GPM stream with your current detergent. For hydrominders start by trying an orange, brown or yellow tip.

*Do NOT use this product alone for cleaning purposes as it does not contain any surfactant. Dilute with softened water for best result.

PROPERTIES

PHYSICAL FORM: Liquid	**SPECIFIC GRAVITY:** 1.35-1.40
COLOR: Greenish	**SOLUBILITY IN WATER:** Complete
PH: 1	**RECLAIM COMPATIBLE:** Yes
ODOR: Acrid	**HAZARDS:** Corrosive

STOCK NUMBER: QW-0032

TECHNICAL DATE: 10/01/26

Clean, dry & shiny... Magnified!
